Defendants.

DECLARATION OF JACKSON JULIAN

Civil Case No. 2:24-cv-00887-JNP

Judge Jill N. Parrish

Magistrate Judge Cecilia M. Romero

I, Jackson Julian, declare:

1. I am over eighteen years old and competent to testify.
2. I have personal knowledge of the facts set forth in this declaration.
3. I am currently a detective with Provo City's Police Department.

4. I graduated from Utah POST in May 2018, and I have been a law enforcement officer with the Provo City Police Department since May 2018.
5. As a law enforcement officer, I am a member of the Provo Bomb Squad and Special Weapons and Tactics Team (SWAT), as well as Provo's Special Enforcement Team (SET), which specifically investigates major crimes, including narcotics distribution.
6. I have extensive experience investigating the use, possession, and distribution of narcotics.
7. Since the fall of 2023, I have been investigating the potential use, possession, and distribution of psilocybin at Singularism, which is located at 1969 N. State Street, Provo, Utah. *See* Affidavit for Search Warrant at pg. 2, attached as Exhibit 1.
8. In the fall of 2024, using an undercover alias, I communicated with the owner of Singularism, Bridger Jensen, I toured Singularism with Mr. Jensen, and I attended a webinar that was hosted by Mr. Jensen, which also included two other members of Singularism's staff. *Id.* at pgs. 3-4.
9. In my communications with the representatives of Singularism, it was emphasized that psilocybin is at the core of their practice and that they provide psilocybin to clients in the form of tea. *Id.*
10. On November 4, 2024, based on the information gathered from my investigation, I executed and submitted an Affidavit for Search Warrant, which Search Warrant was signed by Judge Sean Petersen, Fourth District Court of Utah. *See* Search Warrant, attached as Exhibit 2.
11. The Search Warrant authorized law enforcement to serve the warrant at Singularism's property at 1969 N. State Street, Provo, Utah. The Search Warrant specifically sought

to find and retain evidence of psilocybin mushrooms, equipment used to ingest and/or cultivate psilocybin, business records documenting administering of psilocybin to clients, and financial records documenting transactions related to the purchase of psilocybin. *Id.*

12. On November 11, 2024, I served the Search Warrant on the premises of Singularism located at 1969 N. State Street, Provo, Utah. *See* Police Report at pgs. 4, 11-13, attached as Exhibit 3.
13. During the search of Singularism, I and other members of the Provo Police Department located psilocybin mushrooms in various forms, including dried whole mushrooms, ground or powder mushroom material, and capsules containing mushroom material. *See* Photos, attached as Exhibit 4.
14. The psilocybin mushroom material was stored at Singularism in various containers, such as a glass bowl for whole mushrooms, a glass bowl for powder, various paper cups with handwritten lettering with mushrooms, capsules, and several sealed bags containing mushrooms. *See* Police Report at pg. 12, Ex. 3; *see also* Photos, Ex. 4.
15. Per Provo City Police Department policy, we transferred all opened mushrooms, mushroom-like materials (powder and capsules), and sealed mushrooms into plastic evidence bags.
16. In my law enforcement career, this is the greatest quantity of psilocybin mushrooms that I have seized.
17. When we transferred the mushroom material from the various containers at Singularism, we had concerns about potential exposure to psilocybin, especially from the mushroom-like material in the powder form and any spores from the whole

mushrooms. In an effort to minimize exposure and potential contamination from the psilocybin mushrooms and mushroom powders, I have limited removal of mushrooms from the sealed evidence packages as best as reasonably possible. For those reasons, I have not unsealed the mushrooms that were already in sealed packaging when seized from Singularism, nor have I unsealed the powder that we placed in evidence bags.

18. The weight of all mushrooms and mushroom-like material, including the plastic evidence bags, was 459.8 grams. *See* Return to Search Warrant, attached as Exhibit 5.
19. Following the seizure of the psilocybin mushrooms, I directed that a portion of a single mushroom and a capsule containing the powder mushroom-like material be sent to the Utah Bureau of Forensic Services (the State Lab) to be tested for psilocybin. Both samples received by the State Lab tested positive for psilocybin. *See* Forensic Analysis Report at pg. 2, attached as Exhibit 6; *see also* Police Report at pg. 15, Ex. 3.
20. On November 21, 2024, I was directed to field test one of the whole mushrooms. I removed one mushroom from the collected evidence that weighed .9 grams. I cut off a small portion of the mushroom to test. Using a field test kit, the mushroom portion tested positive for psilocybin. I returned the remaining .7 grams to be held in evidence. *See* Police Report at pg. 14, Ex. 3; *see also* Provo Police Evidence Custody History Report at pg. 2, attached as Exhibit 7.

21. I declare under criminal penalty of perjury under the law of Utah that the foregoing is
true and correct.

DATED this 5th day of February 2025.

A handwritten signature in blue ink, appearing to read "Jackson Julian", is written over a horizontal line.

EXHIBIT 1

has been used or is possessed for the purpose of being used to commit or conceal the commission of an offense; or

is evidence of illegal conduct.

Affiant believes the property and evidence described above is evidence of the crime or crimes of

- Possession of Psilocybin (Schedule I Controlled Substance) with the Intent to distribute, per UCA 58-37-8
- Possession of Drug Paraphernalia, Per UCA 58-37A-5.

The facts to establish the grounds for issuance of a Search Warrant are:

I graduated Utah POST in May of 2018 and have been a law enforcement officer with Provo City Police Department since May of 2018. I have investigated numerous cases involving the use, possession, and/or distribution of illegal narcotics in the course of my duties as a sworn police officer. I am a member of the Provo Bomb Squad and Special Weapons and Tactics (SWAT) Team, a member of the Provo Special Enforcement Team, and a Field Training Officer. I have attended training on Advanced Search and Seizure, Advanced Traffic Stops, and the Utah Narcotics Officers Association. I have written, served, and/or assisted on hundreds of search warrants which have lead to successful prosecution throughout my career.

Provo Special Enforcement Team (SET) detectives received information in September of 2023 about a Facebook post advertising the opening of a "Mushroom Wellness Center" in Provo. The Facebook post listed the address for the center at a residence in Provo and that the grand opening would be on September 6, 2023. On September 6, 2023 I went to the residence and knocked on the door, I was greeted by a male at the front door. When I inquired about the mushroom wellness center, the male stated that I must be mistaken and he had no idea what I was talking about. When I spoke with the male at the door, there was no indication that there was any nefarious activity happening there.

On November 2, 2023, a FOX 31 News story was published about a mushroom treatment center called Singluarism opening its doors in Provo. The news article featured a male named Bridger Lee Jensen who claims to be the founder of the business. In the article, Bridger is quoted and audio/video recorded discussing his experiences in using psilocybin mushrooms. He also discusses how his treatment center is a place where people can "work on their lives and progress spiritually". He also discusses with the interviewer about "guided trips".

The news article discusses how Bridger pushed legislators to pass a bill to allow for the legal use of psilocybin. The bill Bridger is referencing is S.B. 200 "Psilocybin Recommendation Pilot Program Amendments". That bill's current location is found in "Senate file for bills not passed". In the news article, Governor Spencer Cox is quoted saying, "It's just not there yet. We got there with medical marijuana. I just don't believe the science is there. I don't believe we should be experimenting on 5000 people here in our state. And I think there are some serious consequences and side effects societally and as well as medically that I'm just not comfortable with."

The news interview goes on to where Bridger says the following, "When you get to the point where you have had these experiences and you've seen hundreds of people benefit and heeled from it, the scary thought is NOT doing it." According to the news article,

Bridger claims that his business is protected by the Religious Freedom Restoration Act of the United States Constitution.

Later in November 2023 a concerned citizen, who did not want to be named, came forward wanting to speak with detectives about Bridger and his business. I met with the citizen and they advised me that Bridger has a website promoting the business and identified where the business was located. The website is Singularism.org and the business location is 1969 N State St, Provo, UT.

I went to the website and found that it shows Bridger Jensen as the founder, Alex Koritz as the Public Relations Director, Brandi Lee Didrickson as the administrative assistant, Mariangel Babbel as the Relations Specialist, Justin Sharp as the Chief Technical Officer, and Garrett Robertson as the founder partner. The website shows a picture of Bridger appearing to provide some kind of council while a female lays on a couch and appears to be in an either unconscious or semi-conscious state. The website also includes testimonials of people who state they used psilocybin at Singularism.

The website states:

"At the heart of our spiritual practice lies the sacred tradition of Entheogenic Spiritual Guidance. We integrate the profound potency of psilocybin, a revered entheogenic substance with long standing religious use, into our own ceremonies as a means to facilitate deep spiritual connections and foster profound inner spiritual transformation. Our ceremonies are performed safely, sincerely religious, and crucial for producing the effective results from which our members reap invaluable benefits."

I found that throughout the website, there are several claims that Singularism is a religious experience and as such it operates within the Utah State Constitution and United States Constitution. However, the website also states that Singularism charges for their "spiritual counseling services" at a rate of "approximately \$180 per hour,...Participants book packages ranging from 20 to 40 hours at a time."

While Singularism claims to be religious, therefore exempt from the controlled substance act, their website states that participants "do not need to leave [their] current faith or religious beliefs to participate in Singularism's ceremonies."

I spoke with a Utah County Attorney regarding this case and was advised that their office does not feel that Singularism's claim to have religious exemption has any merit and that if there is evidence of anyone possessing, using, distributing, or cultivating psilocybin, that person is subject to prosecution in the state of Utah.

Over the last few months I have continued researching Singularism to try and determine the legitimacy of their claims for the legal use of psilocybin under claims of religious exemption. While on the website, I found a link to register for a free webinar. I also found the website to promote an "academy" to become a "Certified Psychedelic Practitioner". I applied to register for the webinar under an undercover alias.

On October 14, 2024, after registering for the webinar, I received a call from 801-203-0102. When I answered, the male on the other end of the line identified himself as Bridger Jensen. He was calling to follow-up on my application. We spoke for a few minutes about my interest in psychedelic therapy. I discussed my interest using a made up backstory to support my undercover role. During the call, Bridger's phone disconnected. I attempted to call back several times, but it went straight to voicemail. The pre-recorded voicemail

message stated that I had reached Bridger Jensen's phone. I opted not to leave a voicemail. About a minute later, I received another phone call from 435-800-1969. When I answered, I was greeted again by Bridger who explained that his phone had died and that he was now calling me from his assistant, Brandi's, phone. We continued our conversation and he explained he invited me to attend a tour of the wellness center.

I inquired about how much the therapy sessions costed and he explained that they have packages that cost between \$3900 - \$6400. He also invited me to attend a consultation. When I asked him how much a consultation costs, he informed me that they are \$49. We discussed how I was not so much interested in receiving the therapy, but rather in becoming a facilitator, he stated that I should come on the tour and then possibly schedule a consultation.

During our conversation, Bridger explained that the use of psilocybin is legal in his practice due to the religion of Singularism. He explained that Singularism is supportive of other religions and that you need not leave any other religion to join Singularism, but rather it adds to your beliefs that already exist.

On Oct 21, 2024 I attended a tour of the Mushroom Therapy Center located at 1969 N State St, Provo, UT. I met with Bridger in an undercover capacity. He and I walked through the wellness center together. He showed me several rooms that he informed me is where the therapy sessions occur. Each therapy room has a large couch in it where their client sits with a large cushioned chair positioned in front of it where the staff member sits during the sessions.

Bridger and I discussed some aspects of how the center operated. He informed about psilocybin is at the core of their practice at the wellness center. He strongly asserted that their use of psilocybin at the wellness center unlocks the mind and allows for their clients to get the best therapeutic care possible. I asked him about how he knows what mushrooms are safe and he stated that the mushroom they use are "lab quality" and that they grow from grain. He also stated that the way he knows they are safe is by "becoming and expert" such as himself.

During the tour, I noticed one room in the center that the door was slightly ajar. Bridger did not take me into that room, but from what I could see through the small opening, there appeared to be lab equipment inside. I also observed just outside the front entrance, there were about 7 to 10 five-gallon jugs of purified water.

During the tour Bridger also briefly explained the process of a therapy session. He definitively confirmed that they do give psilocybin to their clients in the form of a tea. He stated that the drinking of the tea was considered a "ceremony" and that it induces a psychedelic state. He said that he and his staff members are the ones who provide the psilocybin and that they are "Certified Psychedelic Practitioners." He also said that these sessions last anywhere from 5 to 10 hours.

The tour lasted about 10 to 15 minutes and he invited me to join a webinar the following day to get more information about pricing for their services.

On Oct 22, 2024 I attended a webinar that was hosted by Bridger. There where two other people that attended that were interested in participating in the wellness center's services. There where also two other people that attended the webinar that were members of Bridger's staff. Their names were displayed on their screen as Brandi Lee and Ryan Hightower. During the webinar, Ryan stated that he had "guided a trip" just earlier that day

and had completed that session about a half hour before the webinar began at 1800 hours.

During the webinar, Bridger discussed how he is the founder of Singularism and discussed the basis of the religion. He said that the use of psilocybin is the central point upon which Singularism is based. He said that Singularism is not to be considered a "dogmatic" religion in a sense that you do not need to leave any religion you currently associate yourself with in order to participate in Singularism. He also stated that the way that he founded the religion was by talking with his lawyer to review prior cases in which people claimed religious exemption; where those claimants won or lost; and the judges comments, and essentially created a roadmap to create his religion of Singularism. He even said the ceremonies where the psilocybin is used are his ceremonies. Bridger discussed how the guided use of psilocybin is a "mystical" and "religious" experience. He stated that their sessions are "clinically informed" even though he is "no longer a licensed clinician".

During the webinar, Bridger shared videos of people giving interviews and sharing their experiences using psilocybin. In one particular video, about 1 hour into the webinar, the person being interviewed was detailing the hallucinations he had seen during his "trip". The talk show host asks the person he is interviewing if what he was doing was legal. The Person being interviewed abruptly responded with, "No." Bridger immediately paused the video and assured those of us attending the webinar that his practice of using psilocybin mushrooms in Singularism is legal. Although he did not offer any explanation as to how. Bridger also claimed that he knows that the mushrooms used at his clinic are safe because they are "lab quality" and that he had to learn through trial and error the perfect conditions for extracting the psilocybin from the mushrooms. He also stated that at his wellness center they do not use placebos.

At the conclusion of the webinar, Bridger explained the pricing and the process of how the therapy sessions work. He sells packages in "rounds" and the minimum package is a two round package.

The first step is by attended a consultation with Bridger. During the consultation you answer various screening questions for him to determine if this is the proper course of action for you and if you would benefit from taking psilocybin. If Bridger feels that you qualify, then you can purchase a two, three, or four round package.

The first round consists of four meetings. The first two meetings are considered preparatory meetings. Each preparatory meeting lasts about an hour where you discuss what you may encounter on your "psychedelic journey" and how to deal with those encounters and what to expect from the practitioner supervising your "trip". The third meeting is the "guided session" where you partake of the psilocybin infused tea and enter the hallucinogenic state. This session lasts anywhere from 5 to 10 hours. During this session the staff member documents the client's behaviors and experiences. The final session of the round is a follow up where the client and staff member review the staff member's notes and they discuss the client's experiences. This session lasts about an hour. After about 2-6 weeks, the client repeats the process for a second round, except there is only one preparatory meeting, followed by a guided trip session, followed by a follow up session. The pricing for a two round package is \$3900, a three round package is \$5400, and a four round package is \$6400.

Due to the totality of the circumstances, I feel there is Probable Cause that Bridger is running an illicit business under the guise of a religion. He is getting people to come to a location where he gets them to pay incredibly high amounts of money in exchange for

psilocybin. He has admitted openly that at his "wellness center" the use of psilocybin is the foundation of their practice. He has made statements that he has intimate knowledge of where and how the mushrooms are cultivated and that he has learned the perfect conditions for extracting psilocybin through trial and error.

I am requesting authority to search the Mushroom Wellness Center to seize any illegal psilocybin mushrooms; any equipment used to cultivate the mushrooms or extract the psilocybin; and records, whether physical or electronic, that are kept within the wellness center that is evidence of to whom the wellness center has distributed psilocybin.

This affidavit has been reviewed by Pete Reichman of the Utah County Attorney Office, and it has been approved for presentation to the court.

WHEREFORE, your affiant prays that a Search Warrant be issued for the seizure of said items in the daytime.

I declare under criminal penalty of the State of Utah that the foregoing is true and correct.

Executed on: 4th day of November, 2024 @ 04:55 PM by /s/ JACKSON JULIAN

RETURN TO SEARCH WARRANT

NO. 2992661

The personal property listed below or set out on the inventory attached hereto was taken from the person of Bridger Lee Jensen (DOB 9/6/1981), by virtue of a search warrant dated the 4th day of November, 2024, and issued by Magistrate SEAN PETERSEN of the FOURTH DISTRICT COURT - ALL DEPARTMENT:

- 459.8 grams psilocybin mushrooms
- Psilocybin paraphernalia (scales, storage cups, electronic grinder)
- 1 vial of unidentified liquid
- 2 fluid ounces of THC liquid syrup
- Paperwork for mushroom wellness center therapy sessions and attorney letter

I, Detective JACKSON JULIAN of Provo Police Department, by whom this warrant was executed, do swear that the above listed or below attached inventory contains a true and detailed account of all the property taken by me under the warrant, on the 11th day of November, 2024.

All of the property taken by virtue of said warrant will be retained in my custody subject to the order of this Court or of any other court in which the offense in respect to which the property, or things taken, is triable.

I declare under criminal penalty of the State of Utah that the foregoing is true and correct.

Executed on: 11th day of November, 2024 @ 09:50 PM by /s/ JACKSON JULIAN

EXHIBIT 2

IN THE FOURTH DISTRICT COURT - ALL DEPARTMENT
IN AND FOR UTAH COUNTY, STATE OF UTAH

SEARCH WARRANT

No. 2992661

COUNTY OF UTAH, STATE OF UTAH

To any peace officer in the State of Utah:

Proof by Affidavit made upon oath or written affirmation subscribed under criminal penalty of the State of Utah having been made to me by Detective JACKSON JULIAN of Provo Police Department, this day, I am satisfied that there is probable cause to believe

THAT

On the premises known as 1969 N State Street, Provo, UT, further described as A brown brick building located in a business complex on the west side of North State St. The numbers "1969" are displayed on a white pillar, just outside the front entrance which sits at the bottom of an outdoor stair case. The word "Singularism" is printed on the glass front entrance door.;

On the person(s) described as:

Bridger Lee Jensen (DOB 9/6/1981)

In the City of Provo, County of Utah, State of Utah, there is now certain property or evidence described as:

- Psilocybin Mushrooms
- Equipment used to ingest and/or cultivate psilocybin
- Business records which document the administering of psilocybin to clients
- Financial records which indicate transaction history of purchasing cultivation equipment, income produced by administering psilocybin to clients, and where the money garnered from this business is being kept

and that said property or evidence:

Was unlawfully acquired or is unlawfully possessed;

has been used or is possessed for the purpose of being used to commit or
conceal the commission of an offense; or

is evidence of illegal conduct.

Affiant believes the property and evidence described above is evidence of the crime or
crimes of - Possession of Psilocybin (Schedule I Controlled Substance) with the Intent
to distribute, per UCA 58-37-8

- Possession of Drug Paraphernalia, Per UCA 58-37A-5.

YOU ARE THEREFORE COMMANDED:

to make a search in the daytime of the above-named or described person, vehicle,
item, and/or premises for the herein-above described property or evidence and if you
find the same or any part thereof, retain such property in your custody subject to the
direction of a prosecutor or an order of this Court.

Narrative

Mon Nov 11 21:23:32 2024 - Julian 4342

On November 11, 2024, Provo Special Enforcement Team detectives served a search warrant at 1969 N. State Street, Provo, UT. Detectives seized approximately 460 grams of psilocybin mushrooms, drug paraphernalia, and documents related to the distribution of psilocybin mushrooms. Bridger Lee Jensen (DOB [REDACTED]) was found to be in possession of the mushroom and found to be operating a therapy center, with the use of psilocybin being at the center of the therapy center. Charges for Bridger will be referred to the Utah County Attorney's Office for screening.

L. Wolfgramm

Search Warrant

Contact with Bridger Jensen:

Myself and Det. Graham were doing surveillance on the business of Bridger Jensen. Bridger exited the place of business along with a female. Bridger was with the female for a short time before walking toward his vehicle. We exited our vehicle with our police vests on that were clearly marked as police. We approached him and he was advised that we were police, and that he was being detained. He had his phone out and called his attorney, and had his attorney on speaker while we were explaining the process of the search warrant. The female that walked out of the building came over after Bridger asked if he can coordinate with her about having someone watch his kids. She came over and coordinated with him about the care of his kids, he was then searched for any weapons, then we walked into his place of business with him.

While Detective Julian was explaining everything to him, the business was cleared then a search was conducted. I was the "finder" in this case and all of the items located and seized will be listed below along with its location.

Seized:

Shelf on the wall above the desk - 2 jars of psilocybin mushrooms on of which were grounded.

White safe under desk - A large amount of psilocybin mushrooms in various containers and packaging with various labels.

Left side of desk - A small blender that has some white/grey residue inside of it that was consistent with psilocybin mushrooms.

Left top drawer of desk - A black scale.

Black safe located in Bridger's office - THC syrup.

Bridging Model paperwork - His approach towards the use of psilocybin mushroom through a clergy/religious practice

Photos were taken of the evidence prior to being moved then close ups were taken of the evidence before being packaged and documented. Photos of various paperwork to show different "clients" and amounts of psilocybin mushrooms were also taken and will be included in case report.

[REDACTED]

BACKGROUND INFORMATION:

Provo Special Enforcement Team (SET) detectives received information in September of 2023 about a Facebook post advertising the opening of a "Mushroom Wellness Center" in Provo. The Facebook post listed the address for the center at a residence in Provo, and that the grand opening would be on September 6, 2023. On September 6, 2023 I went to the residence and knocked on the door. I was greeted by a male at the front door. When I inquired about the mushroom wellness center, the male stated that I must be mistaken and he had no idea what I was talking about. When I spoke with the male at the door, there was no indication that there was any nefarious activity happening there.

On November 2, 2023, a FOX 31 News story was published about a mushroom treatment center called Singularism opening its doors in Provo. The news article featured a male named Bridger Lee Jensen who claims to be the founder of the business. In the article, Bridger is quoted and audio/video recorded discussing his experiences in using psilocybin mushrooms. He also discusses how his treatment center is a place where people can "work on their lives and progress spiritually." He also discusses with the interviewer about "guided trips."

The news article discusses how Bridger pushed legislators to pass a bill to allow for the legal use of psilocybin. The bill Bridger is referencing is S.B. 200 "Psilocybin Recommendation Pilot Program Amendments". That bill's current location is found in "Senate file for bills not passed". In the news article, Governor Spencer Cox is quoted saying, "It's just not there yet. We got there with medical marijuana. I just don't believe the science is there. I don't believe we should be experimenting on 5000 people here in our state. And I think there are some serious consequences and side effects societally and as well as medically that I'm just not comfortable with."

The news interview goes on to where Bridger says the following, "When you get to the point where you have had these experiences and you've seen hundreds of people benefit and healed from it, the scary thought is NOT doing it." According to the news article, Bridger claims that his business is protected by the Religious Freedom Restoration Act of the United States Constitution.

Later in November 2023, a concerned citizen, who did not want to be named, came forward wanting to speak with detectives about Bridger and his business. I met with the citizen and they advised me that Bridger has a website promoting the

business and identified where the business was located. The website is Singularism.org and the business location is 1969 N. State Street, Provo, UT.

SINGULARISM WEBSITE:

I went to the website and found that it shows Bridger Jensen as the founder, Alex Koritz as the Public Relations Director, and Brandi Lee Didrickson as the administrative assistant. Mariangel Babbel as the Relations Specialist, Justin Sharp as the Chief Technical Officer, and Garrett Robertson as the founder partner. The website shows a picture of Bridger appearing to provide some kind of council while a female lays on a couch and appears to be in an either unconscious or semi-conscious state. The website also includes testimonials of people who state they used psilocybin at Singularism.

The website states:

"At the heart of our spiritual practice lies the sacred tradition of Entheogenic Spiritual Guidance. We integrate the profound potency of psilocybin, a revered entheogenic substance with long standing religious use, into our own ceremonies as a means to facilitate deep spiritual connections and foster profound inner spiritual transformation. Our ceremonies are performed safely, sincerely religious, and crucial for producing the effective results from which our members reap invaluable benefits."

I found that throughout the website, there are several claims that Singluarism is a religious experience and as such it operates within the Utah State Constitution and United States Constitution. However, the website also states that Singularism charges for their "spiritual counseling services" at a rate of "approximately \$180 per hour, ...Participants book packages ranging from 20 to 40 hours at a time."

While Singularism claims to be religious, therefore exempt from the controlled substance act, their website states that participants "do not need to leave [their] current faith or religious beliefs to participate in Singularism's ceremonies."

I spoke with a Utah County Attorney regarding this case and was advised that their office does not feel that Singularism's claim to have religious exemption has any merit and that if there is evidence of anyone possessing, using, distributing or cultivating psilocybin, that person is subject to prosecution in the State of Utah.

TOUR OF SINGULARISM:

Over the last few months, I have continued researching Singularism to try and determine the legitimacy of their claims for the legal use of psilocybin under claims of religious exemption. While on the website, I found a link to register for a free webinar. I also found the website to promote an "academy" to become a "Certified Psychedelic Practitioner". I applied to register for the webinar under an undercover alias.

On October 14, 2024, after registering for the webinar, I received a call from

██████████. When I answered, the male on the other end of the line identified himself as Bridger Jensen. He was calling to follow up on my application. We spoke for a few minutes about my interest in psychedelic therapy. I discussed my interest using a made up back story to support my undercover role. During the call, Bridger's phone disconnected. I attempted to call back several times, but it went straight to voicemail. The pre-recorded voicemail message stated that I had reached Bridger Jensen's phone. I opted not to leave a voicemail. About a minute later, I received another phone call from ██████████. When I answered, I was greeted again by Bridger who explained that his phone had died and that he was now calling me from his assistant, Brandi's, phone. We continued our conversation and he explained he invited me to attend a tour of the wellness center.

I inquired about how much the therapy sessions costed and he explained that they have packages that cost between \$3900-\$6400. He also invited me to attend a consultation. When I asked him how much a consultation costs, he informed me that they are \$49. We discussed how I was not so much interested in receiving the therapy, but rather in becoming a facilitator, he stated that I should come on the tour and then possibly schedule a consultation. During our conversation, Bridger explained that the use of psilocybin is legal in his practice due to the religion of Singularism. He explained that Singularism is supportive of other religions and that you need not leave any other religion to join Singularism, but rather it adds to your beliefs that already exist.

On October 21, 2024 I attended a tour of the Mushroom Therapy Center located at 1969 N. State Street, Provo, UT. I met with Bridger in an undercover capacity. He and I walked through the wellness center together. He showed me several rooms that he informed me is where the therapy sessions occur. Each therapy room has a large couch in it where their client sits with a large cushioned chair positioned in front of it where the staff member sits during the sessions.

Bridger and I discussed some aspects of how the center operated. He informed about psilocybin is at the core of their practice at the wellness center. He strongly asserted that their use of psilocybin at the wellness center unlocks the mind and allows for their clients to get the best therapeutic care possible. I asked him about how he knows what mushrooms are safe and he stated that the mushroom they use are "lab quality" and that they grow from grain. He also stated that the way he knows they are safe is by "becoming an expert" such as himself.

During the tour, I noticed one room in the center that the door was slightly ajar. Bridger did not take me into that room, but from what I could see through the small opening, there appeared to be lab equipment inside. I also observed just outside the front entrance, there were about 7 to 10 five gallon jugs of purified water.

During the tour, Bridger also briefly explained the process of a therapy session. He definitively confirmed that they do give psilocybin to their clients in the form of a tea. He stated that the drinking of the tea was considered a "ceremony" and that it induces a psychedelic state. He said that he and his staff members are the ones who provide the psilocybin and that they are

"Certified Psychedelic Practitioners." He also said that these sessions last anywhere from 5 to 10 hours.

The tour lasted about 10 to 15 minutes and he invited me to join a webinar the following day to get more information about pricing for their services.

SINGULARISM WEBINAR:

On October 22, 2024 I attended a webinar that was hosted by Bridger. There were two other people that attended that were interested in participating in the wellness center's services. There were also two other people that attended the webinar that were members of Bridger's staff. Their names were displayed on their screen as [REDACTED] and [REDACTED]. During the webinar, Ryan stated that he had "guided a trip" just earlier that day and had completed that session about a half hour before the webinar began at 18:00 hours.

During the webinar, Bridger discussed how he is the founder of Singularism and discussed the basis of the religion. He said that the use of psilocybin is the central point upon which Singularism is based. He said that Singularism is not to be considered a "dogmatic" religion in a sense that you do not need to leave any religion you currently associate yourself with in order to participate in Singularism. He also stated that the way that he founded the religion was by talking with his lawyer to review prior cases in which people claimed religious exemption; where those claimants won or lost; and the judges' comments, and essentially created a roadmap to create his religion of Singularism. He even said the ceremonies where the psilocybin is used are his ceremonies. Bridger discussed how the guided use of psilocybin is a "mystical" and "religious" experience. He stated that their sessions are "clinically informed" even though he is "no longer a licensed clinician."

During the webinar, Bridger shared videos of people giving interviews and sharing their experiences using psilocybin. In one particular video, about 1 hour into the webinar, the person being interviewed was detailing the hallucinations he had seen during his "trip." The talk show host asks the person he is interviewing if what he was doing was legal. The person being interviewed abruptly responded with, "No." Bridger immediately paused the video and assured those of us attending the webinar that his practice of using psilocybin mushrooms in Singularism is legal. Although he did not offer any explanation as to how. Bridger also claimed that he knows that the mushrooms used at his clinic are safe because they are "lab quality" and that he had to learn through trial and error the perfect conditions for extracting the psilocybin from the mushrooms. He also stated that at his wellness center they do not use placebos.

At the conclusion of the webinar, Bridger explained the pricing and the process of how the therapy sessions work. He sells packages in "rounds" and the minimum package is a two round package.

The first step is by attending a consultation with Bridger. During the consultation, you answer various screening questions for him to determine if this is the proper course of action for you and if you would benefit from taking

psilocybin. If Bridger feels that you qualify, then you can purchase a two, three, or four round package.

The first round consists of four meetings. The first two meetings are considered preparatory meetings. Each preparatory meeting lasts about an hour where you discuss what you may encounter on your "psychedelic journey" and how to deal with those encounters and what to expect from the practitioner supervising your "trip." The third meeting is the "guided session" where you partake of the psilocybin infused tea and enter the hallucinogenic state. This session lasts anywhere from 5 to 10 hours. During this session, the staff member documents the client's behaviors and experiences. The final session of the round is a follow up where the client and staff member review the staff member's notes and they discuss the client's experiences. This session lasts about an hour. After about 2-6 weeks, the client repeats the process for a second round, except there is only one preparatory meeting, followed by a guided trip session, followed by a follow up session. The pricing for a two round package is \$3900, a three round package is \$5400, and a four round package is \$6400.

SEARCH WARRANT:

Due to the totality of the circumstances, I feel there is Probable Cause that Bridger is running an illicit business under the guise of a religion. He is getting people to come to a location where he gets them to pay incredibly high amounts of money in exchange for psilocybin. He has admitted openly that at his "wellness center" the use of psilocybin is the foundation of their practice. He has made statements that he has intimate knowledge of where and how the mushrooms are cultivated, and that he has learned the perfect conditions for extracting psilocybin through trial and error.

On November 4, 2024 I submitted an affidavit for search warrant to the Fourth District Court, requesting for authority to search the premises of 1969 N. State Street, Provo, UT. That affidavit was reviewed and a search warrant was granted by the Honorable Judge Sean Petersen.

On November 11, 2024 Provo Special Enforcement Team (SET) detectives served that search warrant. Through my investigation, I had found that Singularism's hours of operation usually close around 17:00 hours. At around 17:00 hours, Detective Wolfgramm, Detective Graham, and I waited outside the building for Bridger to exit. A short time later, Bridger exited the building and began walking to his vehicle. Detective Graham and Detective Wolfgramm stopped Bridger in the parking lot, identified themselves as police officers, and detained him pursuant to the search warrant.

Bridger asked Detective Graham and Detective Wolfgramm if he could call his attorney, and they allowed him to do so. I then walked up to Bridger and I introduced myself. When I made contact with Bridger, he was already on speaker phone with his attorney. I provided Bridger a copy of the search warrant and asked if we could go inside the building so we could speak. Bridger complied and walked us into the business.

Once we walked inside the business, Bridger and I sat down on a couch and had a

conversation while Detective Graham, Detective Wolfgramm, and Sgt. Rowberry searched the business.

INTERVIEW:

My entire interaction with Bridger was audio recorded. The following is a summary of our conversation. For complete details about the interview, refer to the recording.

While Bridger and I spoke, he had his attorney on speaker phone the entire time. I advised Bridger of his Miranda rights and both he and his lawyer stated they understood them. I explained to Bridger that I had probable cause to support allegations that Bridger was providing psilocybin to his clients that attended his wellness center. Bridger openly stated that to be true and even showed me where he keeps the psilocybin mushrooms in the wellness center. He walked over to a desk in the middle of the room and opened a safe. Inside the safe were numerous bags filled with mushrooms, which were consistent with psilocybin mushrooms and identified as such by Bridger. He also opened another safe in his office that contained a bottle of THC syrup, which Bridger later stated he uses personally as part of his religious practices, however, he does not give that to any of his clients. I asked Bridger if he had a medical marijuana card, and he stated that he does not have a current one.

During our conversation, Bridger stated that he believes that his business is legal because of the religion that he founded. I explained that a concern that I had was how can he guarantee that the mushrooms he is providing to people are safe. He said that his record of safe experiences is evidence that the mushrooms are safe. I asked Bridger if he was cultivating the mushrooms, and he alluded that he was not cultivating them. When I pressed about where does he acquire the mushrooms, he said that he did not want to answer that question. No matter how much I pressed about where he gets the mushrooms or where are they cultivated, he did not want to answer as he did not want to self-incriminate.

I asked Bridger about his employees that are psychedelic practitioners at his wellness center. I asked him about when a practitioner conducts a ceremony at his wellness center, who is getting paid for the session, is it the practitioner, is it him, or is it both. He likened it to when a person goes to see a religious councilor. While the client is paying the center, some amount would be distributed to the practitioner. When I asked who all were the people that he employs as practitioners, he said he did not want to say their names, as he did not want to get any of them in trouble and would rather have the legal liability fall completely on his shoulders.

I asked Bridger about the ceremonies themselves and how they are conducted. He stated that the mushrooms are boiled in a water at a specific temperature, which allows for the psilocybin to be extracted and then the psilocybin infused tea is consumed by the client.

I explained to Bridger that the search warrant allows for me to search for and seize any and all psilocybin products, in addition to any records of sessions that he has. Bridger pleaded for me not to take the records as he claimed the

records of his clients' psilocybin induced "journeys" were considered scripture for his religion. I opted to honor his wish and we took photos of session records and left him with the physical copies.

There was one piece of paper that Bridger was insistent that I took with me and admit into evidence. It was a letter that was in the white safe that contained a large quantity of mushrooms. The letter was written by his attorney, address "To Whom it May Concern". The letter explains that the contents of the safe (the psilocybin mushrooms) are considered holy sacrament to the the followers of Singularism and are "integral to the practice of their faith." There was also a hand written expiration date at the bottom of the letter. The bottom of the letter states, "This is one of just 10 copies made 9/8/23 & expires 9/8/24" and is signed by Bridger Lee Jensen.

CONCLUSION:

Bridger fully feels that since he has founded the religion of Singularism, his use and providing of psilocybin to individuals is legal and protected under federal law as part of the Freedom of Religion. However, when speaking with the Utah County and Provo City Attorney Offices, it has been expressed that Singularism is not exempt from the Utah Controlled Substance Act. Bridger has openly stated that he is facilitating and providing psilocybin to numerous people. A large quantity of psilocybin was located in the business that he is responsible for. A bottle of THC syrup was also located in Bridger's business, which he admitted was for personal use. Due to these factors, this case will be referred to the Utah County Attorney's Office for screening of charges.

FinCEN REPORT:

I reached out to the Statewide Information Analysis Center (SIAC) and asked them to run a financial report for Singularism. I received a copy of the reports and they show that Singularism's KeyBank accounts had been previously flagged for suspicious activity due to the nature of the business and the transaction history that took place during the monitoring period. I have attached those reports to this case. The reports are password protected. The password for the FinCEN reports are "[REDACTED]"

CHARGES:

Please refer the following charges for Bridger Lee Jensen ([REDACTED]) to the Utah County Attorney's Office and screen for any additional charges they deem appropriate and necessary:

- Possession of a Schedule I Controlled Substance (Psilocybin) with Intent to Distribute, 58-37-8, F2
- Possession of Drug Paraphernalia, 58-37A-5, MB
- Possession of Marijuana, 58-37-8, MB

Supplement

Thu Nov 21 15:26:17 2024 - Julian 4342

On November 21, 2024 I received a call from a Utah County Attorney requesting that I field test the THC and the Psilocybin mushrooms. I checked out the bottle of THC syrup from evidence and field tested it, which resulted in a positive test. I then resealed the packaging and turned it back into the evidence.

I also checked out the large package of mushrooms. I cut open the package and removed one mushroom that weighs .9 grams that I will use to field test for psilocybin. I resealed the large package of mushrooms and turned them back into evidence as well. I field tested the small sample that I removed from the large package and it field tested positive for psilocybin.

I did not use the entire .9 grams for the field tests. The remainder of the sample was packaged again separately and booked into evidence at the Provo Police Station.

On November 28, 2024 I received an email informing me that the two samples I had sent to the state crime lab had been tested for psilocybin. The report indicates that both samples contained psilocybin. I have a hard copy of the report in my possession. The report is accessible through the Crime Lab Inquiry within the UCJIS portal.

RETURN TO SEARCH WARRANT

NO. 2992661

The personal property listed below or set out on the inventory attached hereto was taken from the person of Bridger Lee Jensen (DOB 9/6/1981), by virtue of a search warrant dated the 4th day of November, 2024, and issued by Magistrate SEAN PETERSEN of the FOURTH DISTRICT COURT - ALL DEPARTMENT:

- 459.8 grams psilocybin mushrooms
- Psilocybin paraphernalia (scales, storage cups, electronic grinder)
- 1 vial of unidentified liquid
- 2 fluid ounces of THC liquid syrup
- Paperwork for mushroom wellness center therapy sessions and attorney letter

I, Detective JACKSON JULIAN of Provo Police Department, by whom this warrant was executed, do swear that the above listed or below attached inventory contains a true and detailed account of all the property taken by me under the warrant, on the 11th day of November, 2024.

All of the property taken by virtue of said warrant will be retained in my custody subject to the order of this Court or of any other court in which the offense in respect to which the property, or things taken, is triable.

I declare under criminal penalty of the State of Utah that the foregoing is true and correct.

Executed on: 11th day of November, 2024 @ 09:50 PM by /s/ JACKSON JULIAN

POSSESSION OR USE OF A CONTROLLED SUBSTANCE

Chain of Custody Statement

The item(s) submitted under the police agency case numbers referenced in this report were in a sealed condition at the time any examination, testing, or analysis was commenced by the undersigned, and that said examination or handling, if any, of the actual items within any such sealed containers was accomplished in a manner to preserve the integrity of the item to assure that any chance of misidentification or environmental cross-contamination would be avoided by adherence to standardized procedures within the Utah Bureau of Forensic Services appropriate to any processes applicable to the examination, analysis, or testing of said items. Any deviation from said procedures and the reasons therefore are noted in the case record. The breaking of any seal or part of the container in which the item was submitted has been followed by reinsertion of the item into its original container, whenever possible, following any examination, testing, or analysis and resealing that container with the undersigned's initials placed over such new seal.

Forensic Analysis Report Follows

This report contains the conclusions, opinions, and/or interpretations of the laboratory analyst whose signature appears on this report. The results relate only to the items tested and/or sampled.

Forensic Analysis Report-CONTROLLED SUBSTANCE ANALYSIS

Item 1.A (Agency Item PRP147687). Psilocyn was identified in the plastic bag. The total weight of the mushroom-like material was less than 100 milligrams. The entire sample was used for analysis. A new glass vial containing the unconsumed extract of the sample was packaged with the item to be returned to the submitting agency.

Item 1.B (Agency Item PRP147687). Psilocyn was identified in the clear capsule. The total weight of the mushroom-like material was 204 milligrams +/- 6 milligrams.

Weight measurement uncertainty calculated at a coverage probability of 95.45%.

I declare under criminal penalty of the State of Utah that the foregoing is true and correct.
